The Z3Dome Z9500™ combines 4k video compression expertise from Z3 Technology with Sony's proven camera technology to provide the highest quality image at the lowest bandwidth. The new ICR on Color function enables the camera to capture video with color even when the IR cut filter is removed. Super Image Stabilizer allows for clear images even during windy days. Wide Dynamic Range corrects shadows and intense blown out highlights in accordance with the intensity difference. Sony's new image processor and 4K lens make this camera a perfect fit for high quality broadcast and detail surveillance.
